

LAUNDRY PRO® 2.0

A B E Y O N D B Y A E R U S T E C H N O L O G Y

Laundry Pro 2.0 incorporates the power of our revolutionary, exclusive ActivePure® Technology with the cleaning action of water with hydrogen & oxygen-based oxidizers to lift dirt and grime away from the fibers of fabric and prevent the growth of odor-causing bacteria. Laundry Pro 2.0 is an amazingly effective cold water laundry system for residential use.

ActivePure® Technology is based on a variation of the technology originally developed for use on the International Space Station and is recognized as the exclusive Certified Space Technology™ by the Space Foundation in its category.

SPACE TECHNOLOGY HALL OF FAME INDUCTEE

The Space Technology Hall of Fame® increases public awareness of the benefits of space exploration and encourages further innovation by recognizing individuals, organizations and companies that effectively adapt and market technologies originally developed for space to improve the quality of life for all humanity.

BETTER FOR SENSITIVE SKIN

Laundry Pro 2.0 ensures that you aren't absorbing anything from the fabrics you touch, which helps you to avoid the allergic reactions that can be caused by detergents. Based on processes used for over a decade in hospitals, hotels, and laundromats, Laundry Pro 2.0 infuses cold water with hydrogen & oxygen-based oxidizers to lift dirt and grime from cloth fibers, leaving clothes brighter and cleaner.

EARTH-FRIENDLY

Cold water only and no detergent bottles to throw away make Laundry Pro 2.0 a better choice for cleaning clothes while protecting the Earth.

As a RoHS compliant product, Laundry Pro 2.0 conforms to requirements for lead (Pb), mercury (Hg), cadmium (Cd), hexavalent chromium (CrVI), polybrominated biphenyls (PBB) and polybrominated diphenyl ethers (PBDE).

Laundry Pro 2.0 is proudly made and designed in the U.S.A.
