

Kinetico **PREMIER** SERIES®

WATER SOFTENERS

Ensure the highest quality water for your home efficiently, effectively and effortlessly

- Enjoy brilliantly simple, non-electric operation for unparalleled reliability and peace of mind
- Protect water-using appliances, fixtures, plumbing, glassware and clothing from stains and scale buildup
- Save time and money by using less detergents and soaps, yet enjoy a cleaner home
- Say good-bye to brittle hair and dry skin

Kinetico PREMIER SERIES®

Product Highlights

Non-Electric Operation: Moving water powers these systems, not electricity, so operation is simple and reliable. There are no timers or computers to set, adjust, repair or replace.

Works on Demand: Systems meter water use and regenerate based on actual usage. You won't waste water or salt, yet you'll always have clean, soft water whenever you need it.

High Flow Rate: Systems keep up with the water needs of demanding households and are perfectly suited for larger plumbing in many homes.

Soft Water, Countercurrent Regeneration: You'll enjoy the benefits of improved system efficiency and water quality thanks to Kinetico's superior regeneration process.

Multi-Tank System: We've combined two systems in one to save you money and space while eliminating media replacement challenges. A multiple tank configuration also ensures a continuous supply of clean, soft, dechlorinated or dechloraminated water, even during regeneration.

Efficient Hardness and Chlorine/Chloramine Removal: Get the water you want in your home without sacrificing savings and convenience.

Efficient Performance: Uses less water and salt than other systems for remarkable savings.

Platinum 10 Year Warranty: Enjoy years of dependability and peace of mind with one of the most comprehensive warranties in the industry.
