SMART H₂O NEW GENERATION WATER PURIFIER

600 Gallon/day large amount of water
filtered and directly drink

Wi-Fi remote control

SIMPLE TONE SMART BODY

Small body and easy
release of the kitchen
space

2 FILTER CARTRIDGES 4 STEPS FILTER

Layer purification · Drink fresh water

FIRST

PP cotton fiber filter

PP cotton primary filter sediment, rust, suspended matter and other visible impurities.

SECOND

Front Carbon Rod Filter

The carbon rod absorbs a large surface area, absorbs residual chlorine, and has different odors, thereby improving the mouthfeel of the water.

THIRD

RO Reverse Osmosis Membrane

Filter out tiny impurities such as bacteria, microorganisms, and scale.

FOURTH

Rear activated carbon rod filter

Further remove the odor and make the water sweet and delicious.

SMAT FILTER FLUSHING

-  Prolongs service life
-  Reduces blockage
-  Prevents bacteria from breeding
