

How to connect Smart H2O to a Smartphone

Note. If you already have Smart Life App installed, you can skip this step:

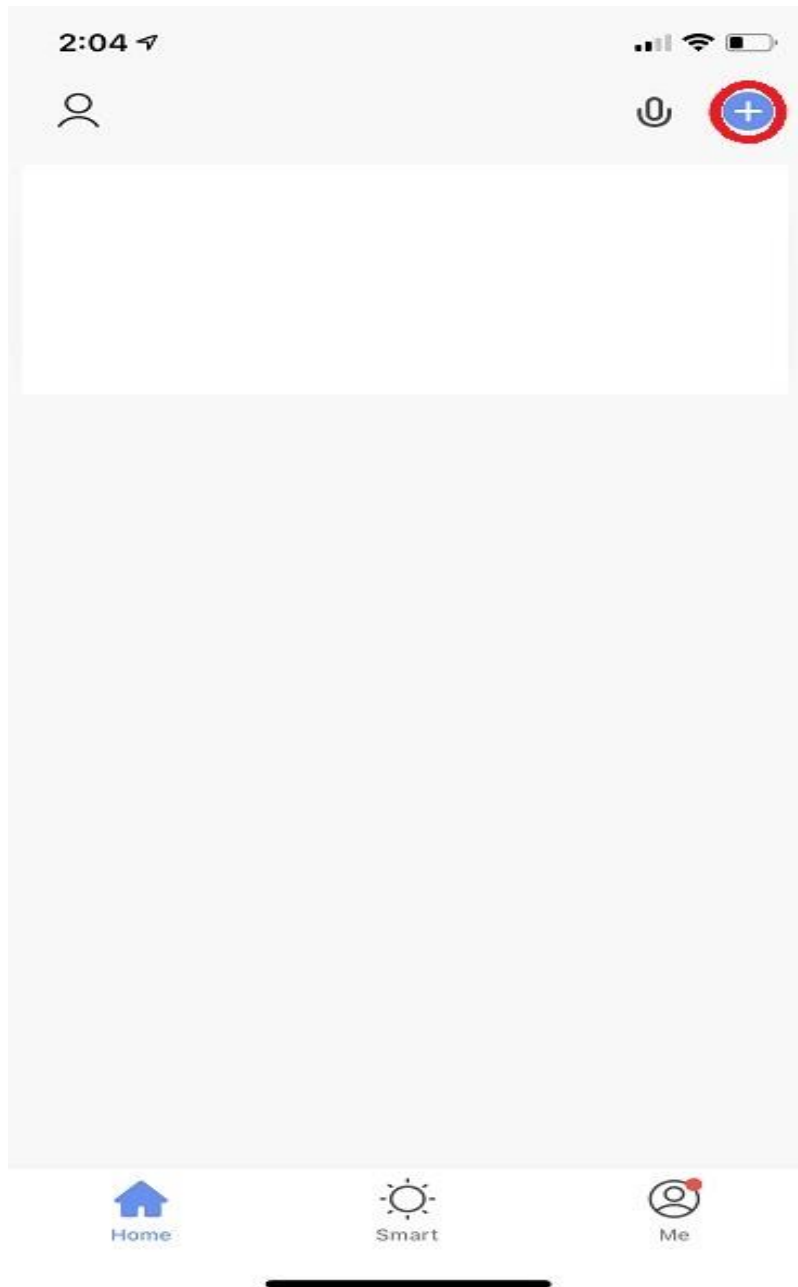

1. Install Smart Life App from App Store or Google Play:

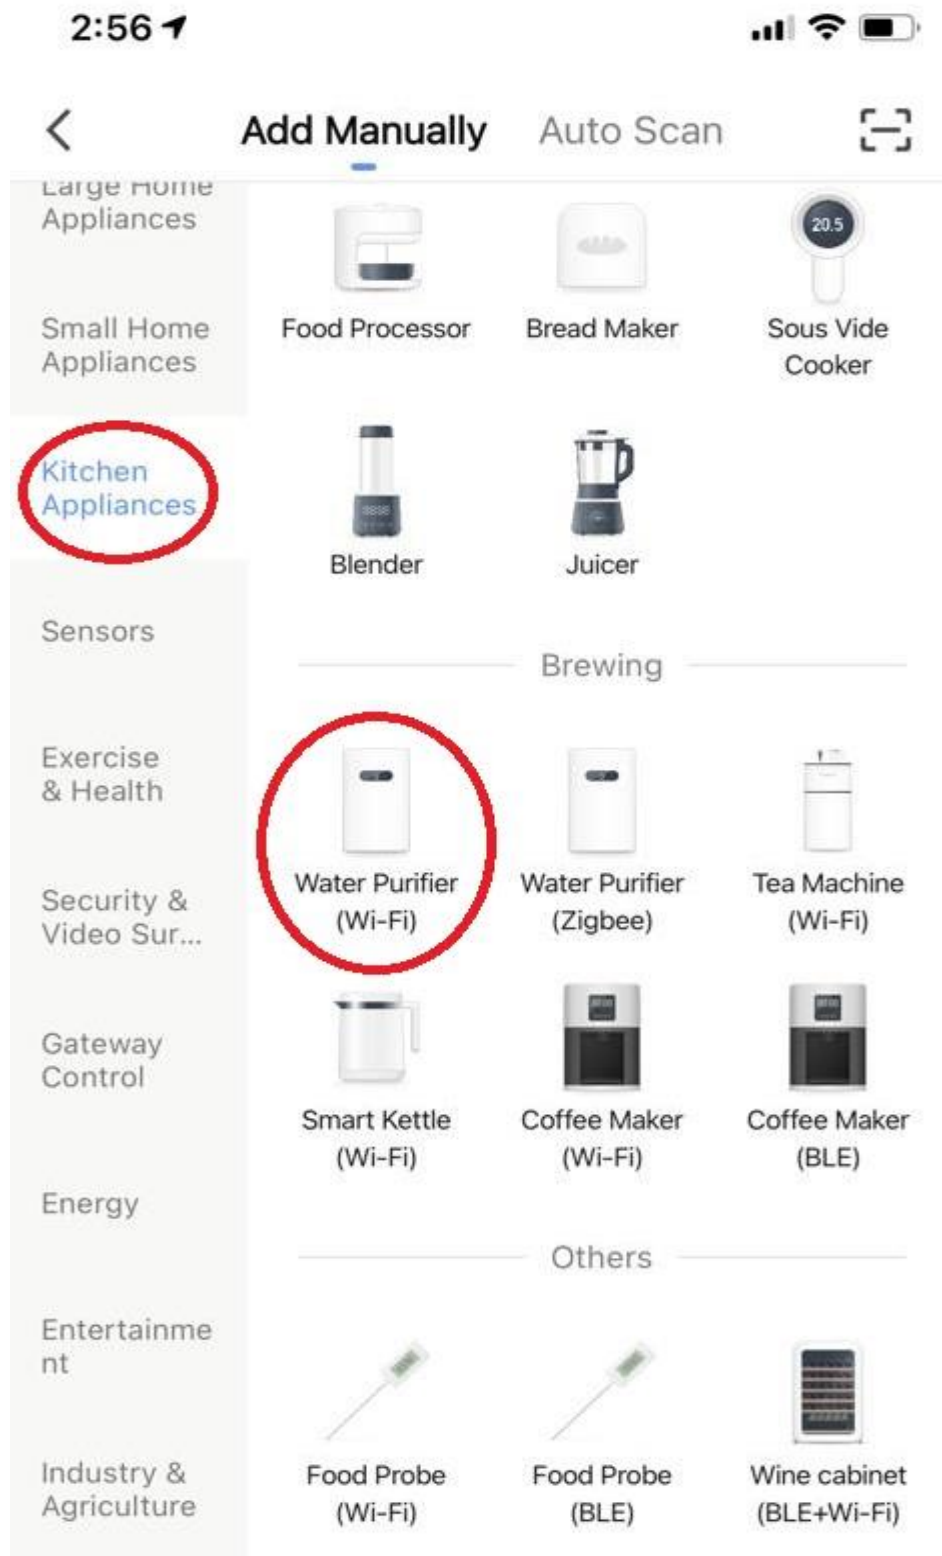

The screenshot shows the Google Play Store page for the "Smart Life - Smart Living" app. The app is developed by Volcano Technology Limited and is categorized as Lifestyle. It has a rating of 4.5 stars from 42,544 reviews and is suitable for "Everyone". A warning icon indicates that the user does not have any devices connected. There is an "Add to Wishlist" button and a green "Install" button. Below the app information are four promotional images: 1. "Smart Control Smart life" showing a smartphone screen with a temperature control interface. 2. "Create your own intelligent scenarios" showing a smartphone screen with a scenario creation interface. 3. "Enjoy the together wit" showing a smartphone screen with a social sharing interface. 4. A small image of a smartphone screen with a list of devices.

Smart Life is a smart device management App for you to control and manage your intelligent home products easier and to live smarter.

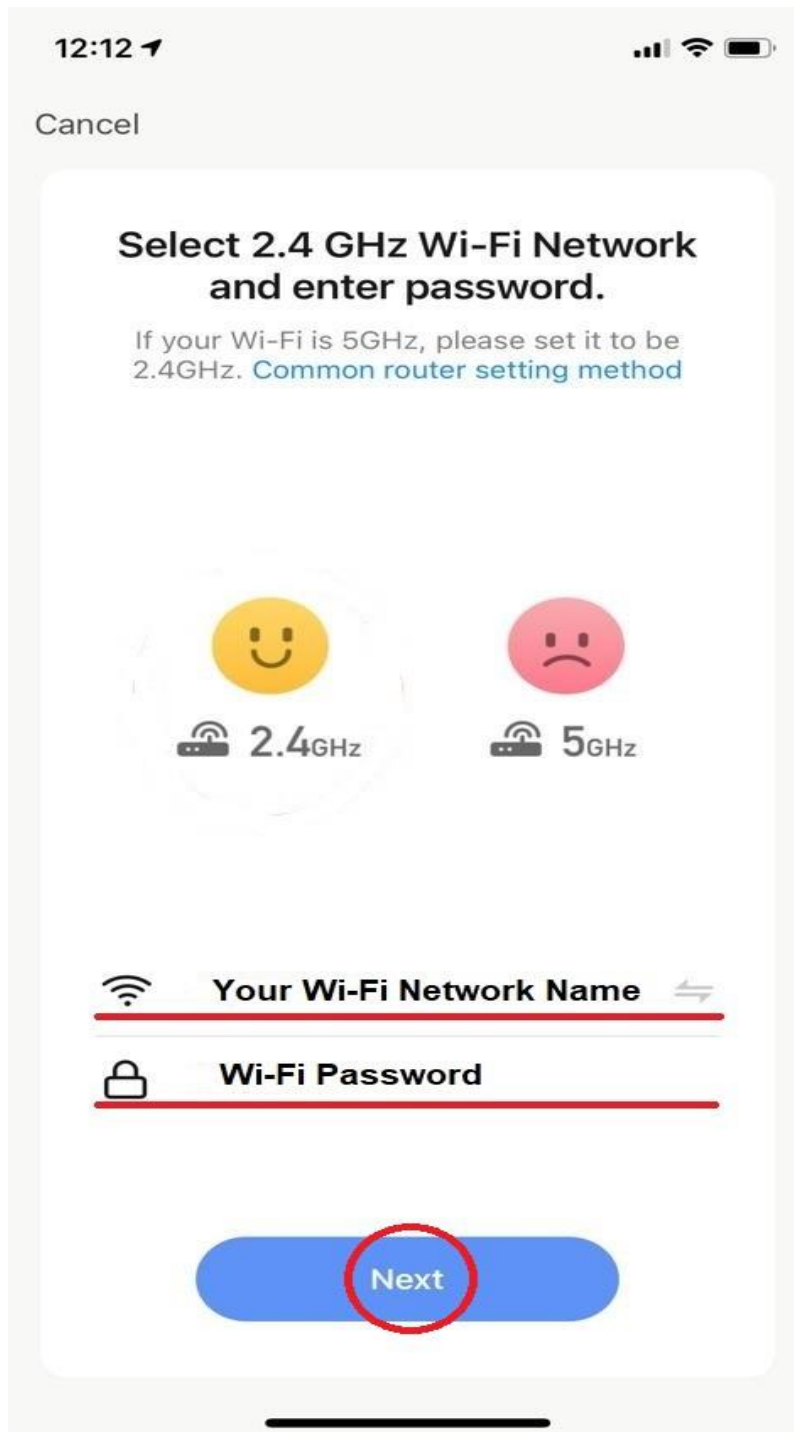

2. Add new device:

3. Choose your device from the list:

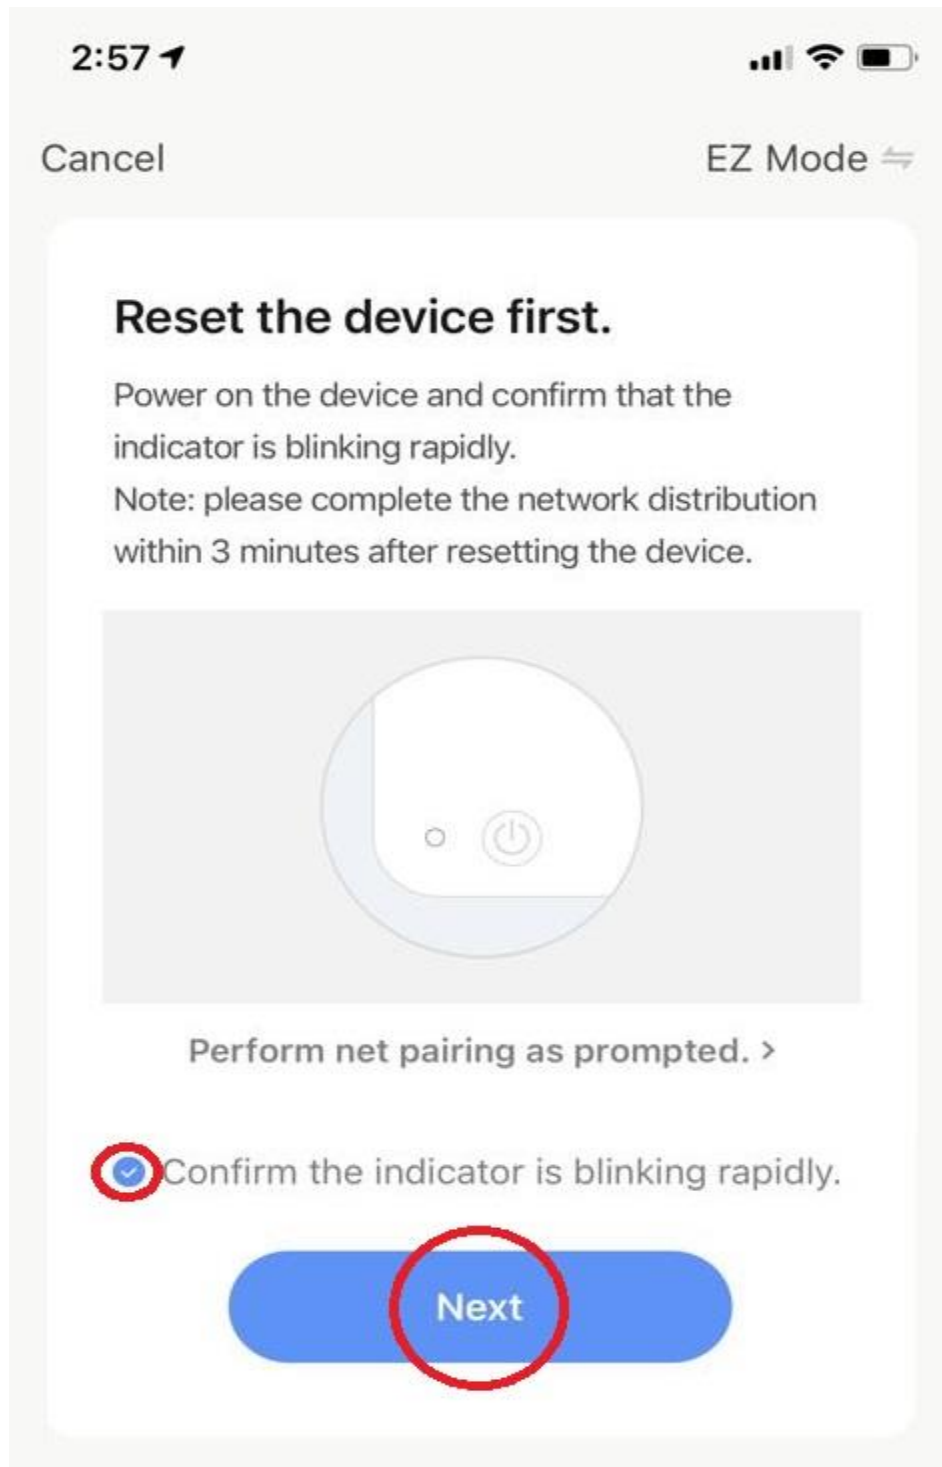

4. Enter your Wi-Fi Network Name and Password:

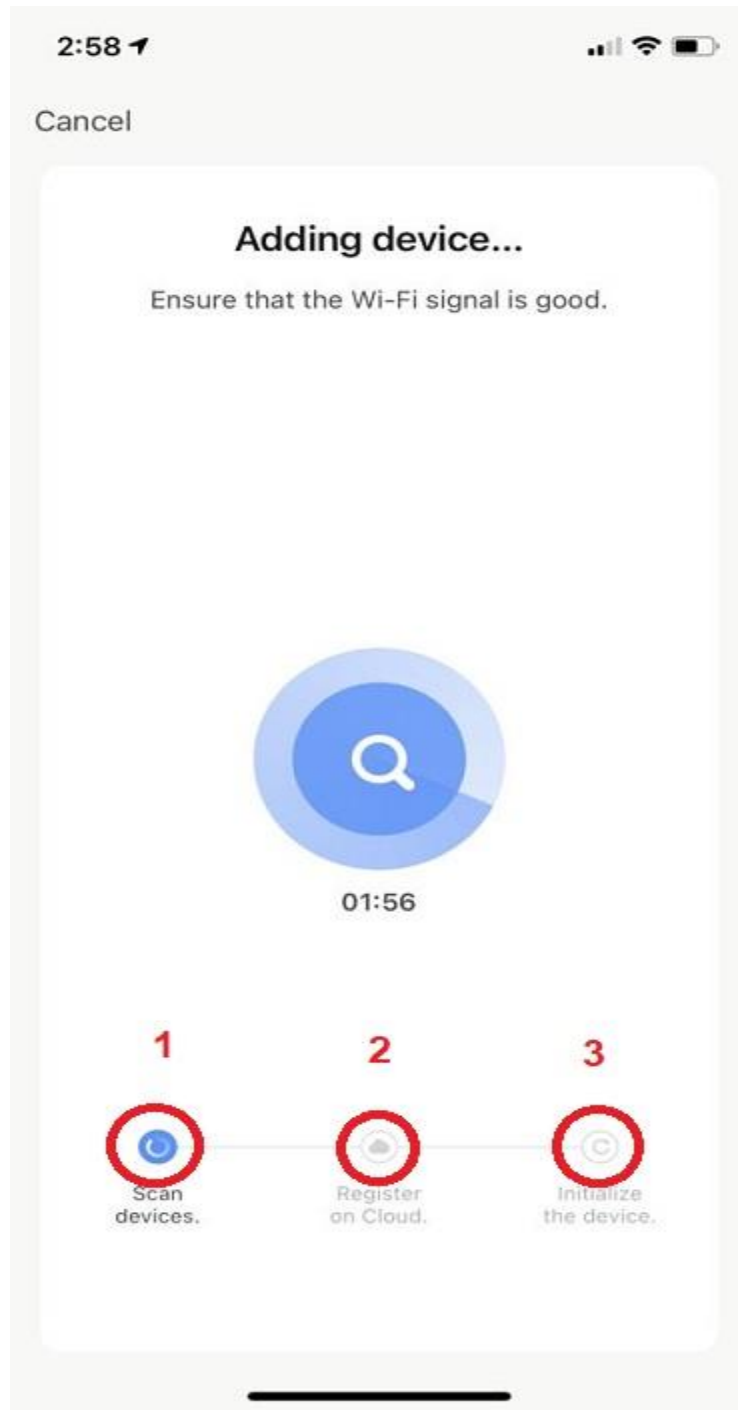

5. Press the button and wait for the purple lights to flash:

6. Make confirmation:

7. Wait for the three-step automatic connection:

8. The final step. If your device is added, you will see:
